

Curriculum Vitae

Personal Particulars

Name: *René Alexander Pawlitzek*
Citizenship: Principality of Liechtenstein
Languages: German (mother tongue)
English (excellent)
French (good)
Marital status: single
Address: IBM Zurich Research Laboratory
Säumerstrasse 4
CH-8803 Rüschlikon
Switzerland
<http://www.zurich.ibm.com>
Work: (044) 724-8683
Home: (044) 715-0764
e-mail: rpa@zurich.ibm.com
rpawlitzek@hotmail.com
www: <http://www.pawlitzek.com>

Work Experience

2001 –	IBM Research Zurich, Switzerland	Principal R&D Engineer & Advisory Project Manager
2001 – 2001	Hewlett-Packard Cupertino, U.S.A.	Software Design Engineer
1999 – 2001	WindRiver Systems Diab-SDS office Foster City, U.S.A.	Senior Software Engineer
1997 – 1999	Borland International Scotts Valley, U.S.A.	Research & Development Engineer
1993 – 1997	Dalhousie University Halifax, Canada	Software Engineer
1992 – 1993	IBM Research Zurich, Switzerland	Software Engineer

Education

1987 – 1992	ETH Zurich Swiss Federal Inst. of Technology	Master in Computer Science (M.Sc.) <i>Dipl. Informatik-Ing. ETH</i>
1986 – 1987	ETH Zurich Swiss Federal Inst. of Technology	1 st diploma in Chemistry

Supplementary Education

2007 – 2008	IBM Project Management Program
2002 – 2003	IBM Micro MBA Program

Certification

2008	IBM Project Management Accreditation
2006	ITIL Foundation Certificate in IT-Service Management

Skills

Programming languages: Java, JavaScript, PHP, C, C#, C++, Pascal/Delphi, Modula-2, Oberon, Fortran, Assembly (MC680x0, i80x86, Z80)

Operating systems: Windows (7, XP), Unix/Linux (Ubuntu, FreeBSD, AIX), Android, OS/2, DOS

Graphical user interfaces: Swing, SWT, AWT, GWT, Hamlets, Dojo, JSP, JSF, Windows (Delphi VCL), OS/2 Presentation Manager

Applications: Eclipse, JBuilder, Delphi, OpenOffice, Microsoft Office, Visio, Mathematica, Maple, Matlab, Cognos, DataStage

Middleware: Apache, Tomcat, WebSphere

Miscellaneous: XHTML/HTML, CSS, XML (SAX, DOM, SOAP, XSLT, XSL-FO), BEEP, SQL (JDBC, DB2, Postgres), LAMP, OSGi, Web Services, Restlets, AJAX, CORBA (VisiBroker), RMI, L^AT_EX, PostScript, http, KMIP

Other skills: excellent analytical and communicational skills, problem solving nature, team player, ability to see details, passion that details be right

Fields of Expertise and Interest

- software engineering and project management
- multithread, object-oriented, and real-time programming
- desktop, web and mobile application development
- graphical user interfaces
- computer graphics and image processing
- programming languages
- computer security
- distributed systems
- embedded systems
- operating systems
- computer networks
- numerics and physics

Awards

- 2011 IBM Outstanding Technical Achievement Award for key life-cycle management
- 2010 IBM Outstanding Accomplishment for Leadership in KMIP standard and contributions to TKLM product
- 2009 IBM Technical Accomplishment for Leadership in KMIP standard and contributions to TKLM product
- 2009 IBM Invention Achievement Award, 2nd Plateau
- 2004 IBM Invention Achievement Award, 1st Plateau
- 2003 IBM Outstanding Technical Achievement Award for Zurich Event Console (ZEC)
- 2003 IBM First Patent Application Award

Patents

Country	Patent No.	Patent
U.S.	7'930'312	System for consolidating data from distributed databases
U.S.	7'925'660	Method for visual structuring of multi-variable data
Japan	4'566'256	System and method for automated validation and execution of cryptographic key and certificate deployment and distribution
U.S.	7'750'910	Monitoring events in a computer network
U.S.	7'516'114	Visual structuring of multivariable data
U.S.	7'401'101	Automatic data consolidation
China	ZL200480001568.X	Automatic data consolidation
U.S.	7'324'108	Monitoring events in a computer network

Present Employer

2001 – : IBM Zurich Research Laboratory, Rüschlikon, Switzerland

Design and implementation of a data warehouse and reporting infrastructure for business analytics

Design and implementation of a key life-cycle management system (Outstanding Technical Achievement Award in 2011)

Design, implementation and standardization of the Key Management Interoperability Protocol (KMIP) to establish a single, comprehensive protocol for the communication between enterprise key management systems and encryption systems (Technical Accomplishment in 2009, Outstanding Accomplishment in 2010). The KMIP standards efforts are governed by OASIS (<http://www.oasis-open.org/committees/kmip>).

Design and implementation of the IKEv2-SCSI part of the SPIKE protocol for the Tivoli Encryption Key Manager (TEKM) to ensure that keys are transmitted securely to endpoints

Design and implementation of a web-based graphical user interface for the IBM Integrated Security Defense (ISD), a monitoring solution which provides a comprehensive, coherent view of enterprise security

Design and implementation of an easy-to-use and easy-to-understand, small-footprint, servlet-based content creation framework called Hamlets that facilitates the development of web-based applications (Open Source Software since 2007, <http://hamlets.sourceforge.net>)

Design and implementation of a stand-alone, Java-based, real-time application called BillyScope to visualize events from the BillyGoat worm detection system

Design and implementation of a fast, Java-based web application called Web-based Zurich Event Console (WebZEC) to quickly navigate in large numbers of intrusion detection alarms

Design and implementation of a high performance stand-alone Java-based application called Zurich Event Console (ZEC) to monitor, investigate, and document huge numbers of intrusion detection alarms (Outstanding Technical Achievement Award in 2003)

Design and implementation of a graphical user interface for the IBM WebSphere Matchmaking Environment (WME), a toolkit for the construction and day-to-day management of an electronic market place

Previous Employers

2001 – 2001: Hewlett-Packard, Cupertino, U.S.A.

Concept and design of a web-based programming environment

1999 – 2001: WindRiver Systems, Foster City, U.S.A.

Design and implementation of a multithread class browser for the Run-Time Analysis suite (RTA), Integration of RTA into Java-based frameworks (Tornado 3, pRISM+), Conversion of RTA from AWT to Swing

1997 – 1999: Borland International, Scotts Valley, U.S.A.

User interface design and Integrated Development Environment (IDE) work for Delphi 4 and C++Builder 3 and 4; includes Project/Package Manager, File Management, Wizards, Object Repository, Printing

1993 – 1997: Dalhousie University, Halifax, Canada

Design and implementation of an object-oriented, multithread application (LEEPS) for OS/2 and Windows to analyse Point Source Electron Microscopy (PSEM) data

1992 – 1993: IBM Zurich Research Laboratory, Rüschlikon, Switzerland

Acquisition and processing of Scanning Tunneling Microscopy (STM) data within the research group of Dr. H. Rohrer (1986 Nobel Laureate)

Publications

- *Reflecting on Hamlets*, R. Pawlitzek, IBM Zurich Research Laboratory, CH-8803 Rüschlikon, Switzerland
December 2010

- *Key Management Interoperability Protocol Specification Version 1.0*
Key Management Interoperability Protocol Profiles Version 1.0
Key Management Interoperability Protocol Usage Guide Version 1.0
Key Management Interoperability Protocol Use Cases Version 1.0
OASIS, June 15, 2010
- *Design and Implementation of a Key-Lifecycle Management System*,
M. Björkqvist, C. Cachin, R. Haas, X. Hu, A. Kurmus, R. Pawlitzek,
and M. Vukolic, IBM Zurich Research Laboratory, CH-8803
Rüschlikon, Switzerland
Proc. Financial Cryptography and Data Security (FC 2010), volume
6052 of Lecture Notes in Computer Science, pages 160-174, Springer,
2010
